

Frequently Asked Questions: AFA 01B-2014-JRI

Justice Reinvestment Act – Treatment Supervision Implementation

- We have been unable to find the due date for the letter of intent. Could you please provide us with the date? Thank you for your assistance.
 - The Letter of Intent (LOI) can be submitted at any time, as it is not a mandatory document. The LOI deadline is a prompt for the applicant organization. If you plan to apply for grant funds a LOI may be submitted at your earliest convenience as a courtesy to the BBHMF.
- MOUs must be completed among key partnering agencies indicated by a * (pages 13 and 14 of the AFA). “Individual/Family Assistance Programs” are listed as a required MOU. Can you give some examples of individual or family assistance programs?
 - Examples of individual/Family Assistance Programs can include but are not restricted to: family resource networks, food pantry/banks, utility assistance programs, state/federal assistance programs (WIC, TANF, SNAP, etc.). The majority of these assistance programs are available through community provider organizations. A Memorandum of Understanding (MOU) with such providers outlining the availability of these resources/programming for the target population is required, however the Bureau is unable to name specific entities as they vary within each community.
